

“Simplicity
is the highest form
of sophistication”

Leonardo da Vinci

WEGG is the synthesis
of an in depth study
on functionality, materials,
aesthetics and practicality
condensed in the essentiality
of its forms.

WHAT IS WEGG

Born from the collaboration with ISIA Roma Design, WEGG is a container of wine bottles with multiple features.

It contains

WEGG is a container of wine bottles

It cools

Thanks to its innovative cooling kit containing reusable jelly, WEGG is also able to cool bottles.

It lasts

Special insulation system allows WEGG to keep the temperature constant for hours.

It's a gift

WEGG is a refined design object, an exclusive gift for special occasions.

WHY CHOOSE WEGG

WEGG is beautiful and always functional. Each component, even the least visible, has been designed to be attractive but useful at the same time.

Essential design

WEGG represents the originality of the essentials thanks to the study of forms realized by ISIA Design.

Beautiful finishing

WEGG is manufactured with high quality materials and with the utmost care for the aesthetic finishing.

Environmental sustainability

WEGG respects the environment by using recyclable materials.

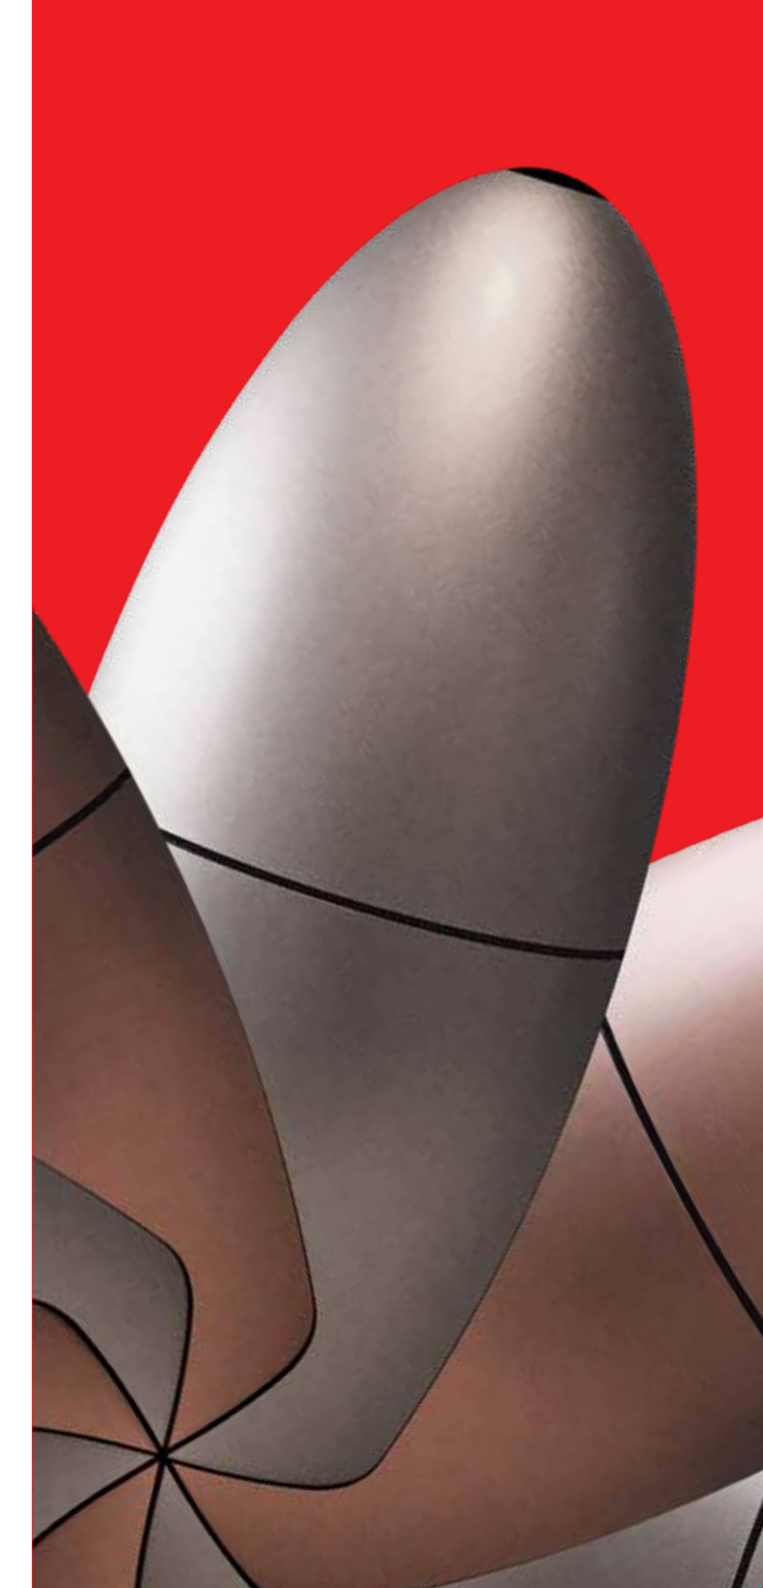

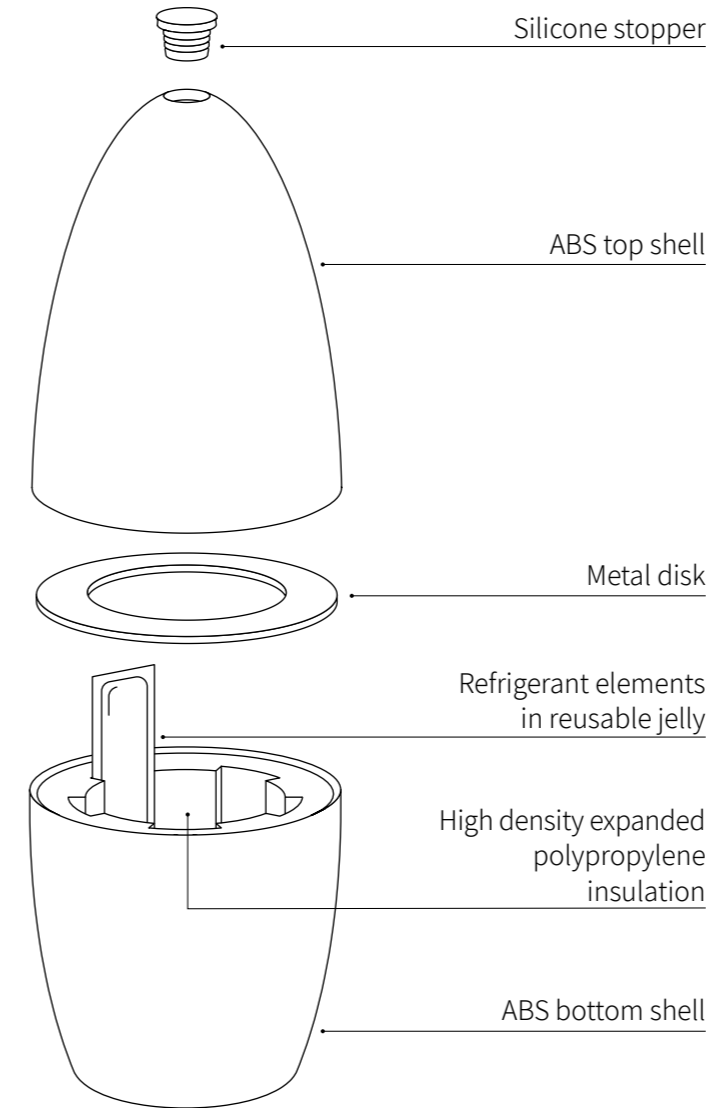

Innovative product

WEGG takes very little time to get the wine to the serving temperature.

Personalization

WEGG can be personalized with the silkscreen of your logo or slogan.
